

URBAN PLANNING

The background features a complex, abstract architectural line drawing in a light blue-grey color. It consists of numerous vertical and horizontal lines of varying lengths and thicknesses, creating a sense of depth and structure. The lines are arranged in a way that suggests a cityscape or a series of interconnected urban forms, with some lines forming a grid-like pattern and others creating more organic, flowing shapes. The overall effect is that of a technical drawing or a conceptual urban plan.

Sustainable development

DEFINITION

Urban Planning:- design and regulation of the uses of space that focus on the physical form, economic functions, and social impacts of the urban environment and on the location of different activities within it.

involving goal setting, data collection and analysis, forecasting, design, strategic thinking, and public consultation.

Three actors have main role in urban planning

- **The decision-makers**
- **The technicians**
- **The users**

Urban Planning

HISTORY

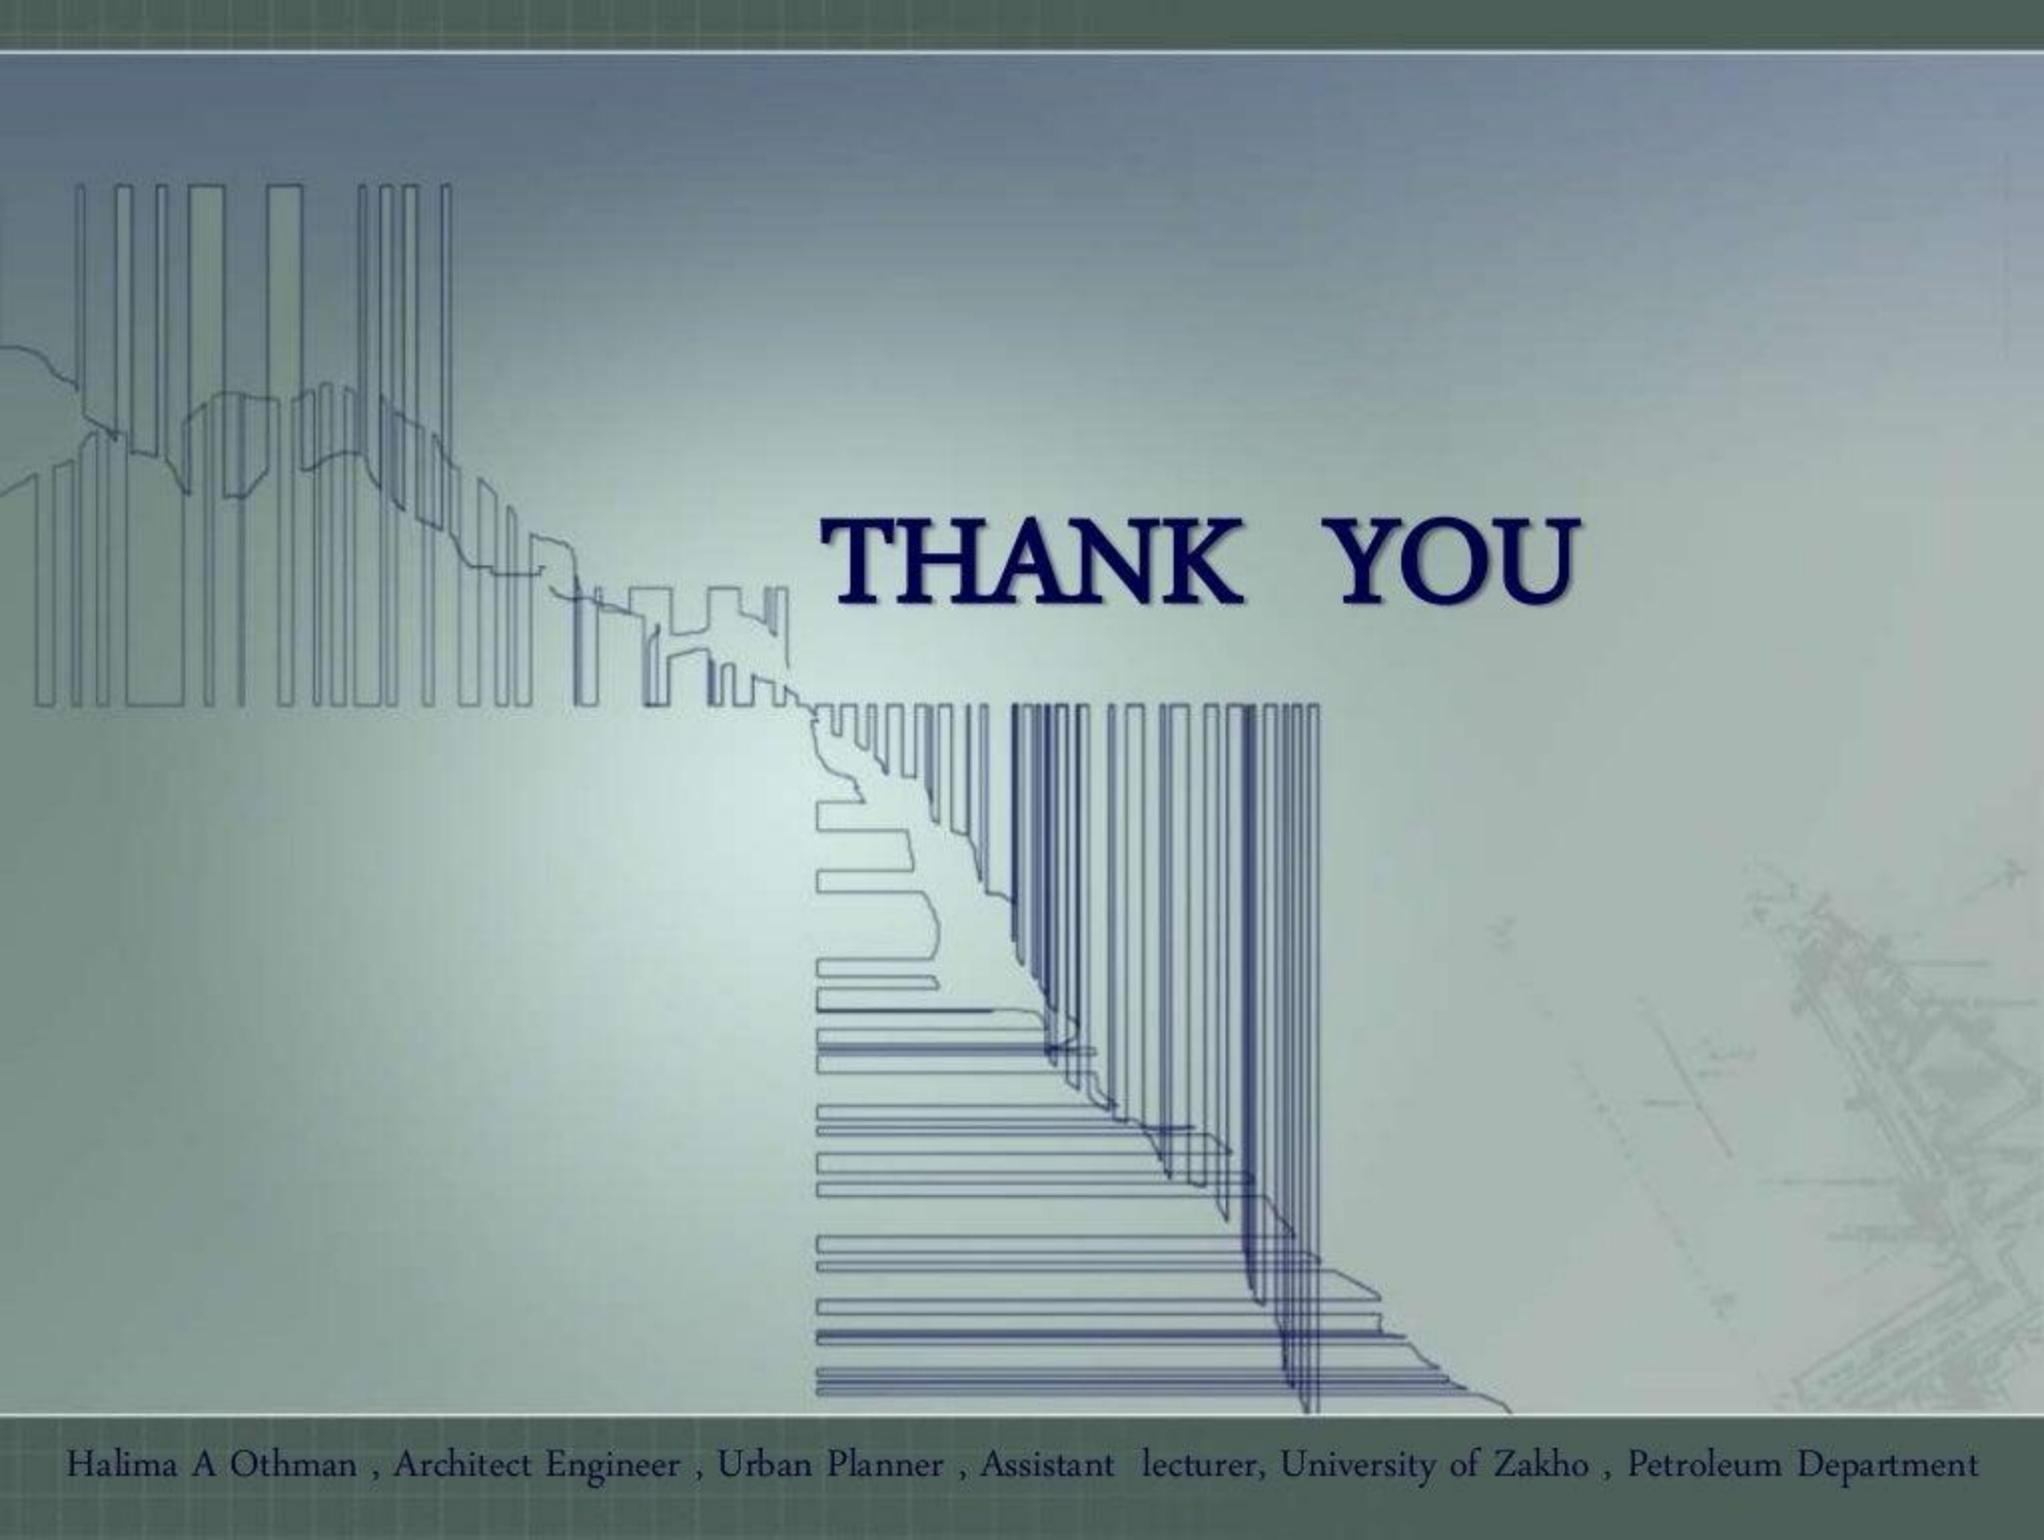

The first recorded description of urban planning is described in the Epic of Gilgamesh, Designed cities were characteristic of the Minoan, Mesopotamian, Harrapan, and Egyptian civilizations of the third millennium BC.

Classical and Medieval Europe followed by

“Hippodamus invented the vision of cities”
Aristotle. therefore he was called the father of
Urban planning 5th century BC.
ideal cities centrally planned in the 15th century,
in 1876 the term urbanization posed by Ildefonso
Cerdà due to reconstruction processes

Renaissance & Enlightenment

The background of the slide features a detailed architectural line drawing of a building facade. The drawing is composed of numerous vertical and horizontal lines, creating a complex, layered structure. The lines are dark blue and set against a light blue gradient background. The drawing appears to be a technical or conceptual sketch of a modern building's exterior.
