# Project Management

# Construction Project Management

**Project** : Converting Vision or Need to reality.

A project is composed of **activities or tasks** that are **related to one another** in some manner and all these should be **completed in order** to complete the project.

**Project management**: Is the **application** of knowledge, skills, tools, and techniques to project activities to meet the project requirements.

**Aim**: Completion of the project **on time within the budget** without compromising the **quality**.

# Project Manager

---

Project managers have the responsibility of the **planning, procurement** and **execution** of a project.

Project managers are the first point of contact for any issues or discrepancies arising from within the heads of various departments in an organization before the problem escalates to higher authorities.
